- Office Furniture
- Reception
- Boardroom
- Conference Rooms
- Canteen
- Glazed partitioning
- Bespoke security desk

The offices are located at the front of a large factory which is the first UK based production facility for an Austrian company. This new facility is the first phase of an exciting period of expansion for the client. The offices are to be used as their UK Headquarters.

Accolade worked closely with this market leading client to provide a solution to their furniture & fit out requirements.

The client specified that the furniture should be 'robust and practical'. This was achieved through a careful selection of manufacturers and our own bespoke solutions.

This superb reception suite welcomes visitors to the impressive building. The convex/concave design was chosen to create a relaxed yet professional atmosphere.

The conference rooms are equipped with practical yet visually stunning modular tables. Together they create an impressive single table with integrated cable management. They also offer the versatility of quick re-configuration for a variety of applications.

A vibrant atmosphere has been created in this busy canteen area by the choice of these colours. Practical yet comfortable lime green chairs are complimented by clean-looking and stylish white tables.
